INEQUALITIES IN TAXES.

The so-called talca paid by [transportatlon] [uncertain] agencies, other than railroads, [arv,] [uncertain] for the most part, partial payment for the use of publicly provided and- maintained highways or airports, and represent virtually no contribution to the general expenses) of [government] [uncertain] or the services of pul lie welfare. Including these eo-called tuxes and [alao] [uncertain] federal income and excise taxes, payment in 1949 hy [alr] [uncertain] barriers amounted to only about 4 per dollar of revenue, those of inland water carriers to only about [B] [uncertain] cents, and those of common and contract highway motor carriers to only [aboul] [uncertain] 6 cents per dollar. The corresponding fleury for railroads was more than [1%] [uncertain] cents per dollar of revenue. Thus the [rallroada] [uncertain] pay in taxes mere cents per dollar of revenue than their competitors and in addition bear the full cost of providing and main- [taining] [uncertain] their own roadways.

MORE GOVERNMENT JOBS,

The government evidently [wanta] [uncertain] control of the [nize] [uncertain] of farm families. They are asking farmers to join them in the study of family-site farm, They want to decide, no doubt, on haw much land [3] [uncertain] newly married couple should have and how much land those with one or more children should have. Souncde like [sociallam] [uncertain] gone to seed. It may be that the government will take over all the land.and dish it out to the family as the family grows, this creating more govern- went jobs for more people and more taxes from Industry until there ix no industry.
