OVERDUE ROUSE CLEANING.

Newaweek recently devoted a part to the expected house clearing in the department of the Interior. It ob served, Through its dams, ditches, transmission lines and office-holders, interior became the prime [lastrument] [uncertain] of New Deal-Fair Deal assertion of federal authority as opposed to state, local and private [rraponalbility.] [uncertain] Thus, it [atso] [uncertain] became the department most likely to be done over by the new administration." It added that interiors biggest unit, the Reclamation [Bureau,] [uncertain] which accounts for close to half of the departments total budget, looks for a major [recasting,] [uncertain]

It ia devoutly to be hoped that the new interior secretary, [former-Gov-] [uncertain] erna McKay of Oregon, will do beng-up remodeling job in the shortest possible time. Interior has not only wasted tremendous sums of the taxpayers' money, but has advocated a political philosophy opposed to orrery

American concept of government.

Interior has been the bellwether of the socialistic drive The most con- [spicuovs] [uncertain] example has been its [unre]

[uncertain] [mitting] [uncertain] effort to nationalize the elec- trip power producing resources of the nation and to [biock] [uncertain] development by the publicly-regmlated, heavily-tased, business-managed utility companies

Interior, as it has been administer- ed, is 100 per cent typical of the pbil- [osophy] [uncertain] which the voters overwheim- [ingly] [uncertain] repudiated last November. The housecleaning is long overdue.

THE TREND OF REAL PRICES"

Ax everybody knows the prices of goods have increased heavily in re- cent years. What most of us ap patently [dont] [uncertain] know is that wages have increased much more percentage wipe.
