RETURN OF THE BUSINESSMEN.

For the first time in twenty years, business leaders are in nearly all the i key positions in our national govern- went. Most Americans will welcome the patriotic efforts of these big men [lof] [uncertain] talent and skill as they come to [perve] [uncertain] their country at great personal and financial sacrifice. There are still a few [basinesamen] [uncertain] oft [(and] [uncertain] some of them in Texas) who nave not progressed beyond the low rough law of the jungle, of tooth and law and the rule that might makes right In crushing competition. Maybe [something] [uncertain] will be done at last now about the waste and [featber-]] [uncertain] wedding of which the armed forces are been guilty for lo, these many years.

A citizens committed which has been [atudyng] [uncertain] the problem for some months reports that \$5,000,000,000 can be saved annually without impairing the combat strength of the armed forgers. A half million military and civilian fobs can be dispensed with, the commission,
