The nations railroads set an [all-]
[uncertain] time [aafcty] [uncertain]
record in 1952, according to preliminary

[reports—almost] [uncertain] twice) as
[ood] [uncertain] as the record established
[tn] Jo49,] [uncertain] the beat previous
[yoar] [uncertain] during [F] [uncertain]
the 65 years safety [figuree] [uncertain]
have been ns kept. The gain in railroad
safety is even i more remarkable when
considered in

relation to the amount of traffic
[handied..] [uncertain] As compared with
1039, the safest year of the prewar period,
the rails handled in 1952, nearly twice os
much freight traffic and half again oy as
much passenger travel, but had

come, 30 per cent fewer fatalities.

Achievements much as this [arent]
[uncertain] rt the result of luck. They are
the re-

must of unremitting work to
[climinate] [uncertain]

the causes of accidents.

As one little example, consider railroad
rail Every single rail in Americas [275,
000-mile-long] [uncertain] main

track has a complete life history. A
system of brands shows the year and 1
month It was made, the mill that pro-

[doced] [uncertain] It, the batch of steel
from which it originated, and even the p
section of the ingot from which i Qnally
came.

All the rail in main tracks is peri-
[odically] [uncertain] inspected by
electronic de vices carried in railroad
detector cart.

[7] [uncertain] When defects are found
the [ral] [uncertain] is immediately
replaced. Rail removed

for any reason other than normal wear
is analyzed and ways are sought to correct
the cause of the flaw. Here is one of the
many reasons i why our railroads provide
the safest and most dependable
transportation on earth.

AVERAGE FAMILY PAYS iT

**[WALLOPING] [uncertain]
TAX TOTAL,**

Even though you know that taxes re play.g havoc with your pocketbook, it still comes as 8 [shork] [uncertain] to sorn that the average family of four paying \$16 [KO] [uncertain] on federal, state nd local taxes a month. This was he estimate arrived at by fiscal [nalyst] [uncertain] working for several members) f congress e

The analysts figures show [impresively] [uncertain] what happens when the [federal]] [uncertain] j, government assumes broad centralized) ayers and embarks on a spending free. He estimated that the [aver-|c] [uncertain] ge family eye \$150.30 month to he federal government, compared); with \$46.06 month to state [and/{} [uncertain] local [guvernmenta] [uncertain] It a the [federal]] [uncertain] ax bite, more than three times [m8] [uncertain] much as the combined state and local taxes, which deals a crippling blow to the family Income.

Those who have estimated that the) average American is [peying] [uncertain] 35 per), cent of his income in taxes don't seem to be far wrong. 1

The moral of these figures e that), the taxpayer must demand economy) at every level of government. The) Republicans in congress heave [prom,] [uncertain] lined a big reduction in federal [spend-] [uncertain] ing. They appear to be trying to make good their [promiac,] [uncertain] le [will]] [uncertain] take at least a year before the effect of the [reductions] [uncertain] will be felt, because of the commitments made by the previous administration and the previous congress.

But the reduction in federal spending will avail us nothing if state and local governments try to grab the [arvuible] [uncertain] tax money that the federal government is relinquishing. In these [daysof] [uncertain] inflation and high taxes, we must stick to essentials in public spending if our American standard of living is to be [maintained.—Houston] [uncertain]

THRIFT IN GOVERNMENT.

By J. C. [Penney.] [uncertain]

For fifty-one years Ive been preaching thrift, economy and aclf- reliance, and they were never more needed than today." The man sometimes called Mr.

Main Strect of America," because of the widespread J. C. Penney stores, said that prior to the present admin- [istration,] [uncertain] the United States had come very close to sacrificing personal lib- [erties] [uncertain] to m creeping paternalism."

CROCKETT COURIER: M/ WASHINGTON NEWS FROM JOHN DOWDY

Washington, [D.] [uncertain] C. March
6, 1953. My Dear Frienda:

The death of [Stalin] [uncertain] was
the moat far-reaching news of this week.
Some think t to be good news others take
it to be bad. Only prophet could predict, at
this time, which Ls correct.

During Ubis week, at committee
hearing, [Attorney] [uncertain] General
Brownell made statement concerning our
tide- lands [whkh wae] [uncertain]
disturbing to many of us [bere,]
[uncertain] as I am sure it was to you. His
statement showed a lack of information
sad understanding on [hla] [uncertain]
part. In common with many people in
other sections of the nation from ours, he
seems to think our tidelands claim e just a
desire for [oll] [uncertain] and money. It
seems they cannot realize that with us it Is
[matler] [uncertain] of principle, which we
will not com- promise and would not
compromise even though we knew [It]
