[YAVY] [uncertain] CROCKETT TRINITY [COUNTY] [uncertain] SOIL CONSERVATION

Dill Maxwell, cooperater with [the}] [uncertain] fF Davy Crockett-Trinity County Soil [Conservation] [uncertain] district, is well pleased with the amount of grazing that he is getting from [hia] [uncertain] cover crops this spring. Mr. Maxwell, whose farm ls located two miles southwest from; Lovelady on the Weldon farm to market [romd,] [uncertain] planted [40] [uncertain] acres of cover crops in one field. Twenty-five acres were drilled to [vat>] [uncertain] alone and 25 acres to [onta, singletary] [uncertain] peas and vetch.

On January 1; Mr. Maxwell began grating with 32 cows and on February 10 he pul an additional 15 cow! P on the 50 acres. Just aa soon as the) weather permits, Bill intends [to-put] [uncertain] 33 more cows and large calves on the cover crop. He plans to take the city [tle] [uncertain] off early enough to allow the d [Plents] [uncertain] to produce a seed crop and to leave some crop residue on the ground.

Laat year Mi. Maxwell had 40 acres In vetch and peas. In Noyember he put 16 cows and an old bull in [the]] [uncertain] field. During the last [alx] [uncertain] weeks of the grazing period-bs put between [90]] [uncertain] and 100 cows and 66 calves on the field. These calves averaged 500 pounds when sold and were considerably anger than calves of the same age that were not.on a cover crop.

[After] [uncertain] taking the cattle off he turned

under a good" [cover—crop. There] [uncertain] ia one outstanding feature about this years cover crop. The 25 [actes] [uncertain] in, oats, peas and vetch show much more growth than that on the 1

2h acres planted to [vata] [uncertain] alone, This in due, no doubt, to the additional nitrogen that [ia°] [uncertain] made available by the nitrogen fixing bacteria that are [présent] [uncertain] on the root system of the peas and vetch.

Mr. Maxwell said, A good field highly fertilized and planted to vetch and peas will furnish more [grasing] [uncertain] than any thing I know of."

[Major] [uncertain] Adrian A. Davis is another cooperater who is well pleased [with}} [uncertain] his cover rope [thik] [uncertain] year, Major) Davis planted 70 acres in peas, vetch, [Fontes] [uncertain] and [erimson] [uncertain] clover. Davie figures that [thle] [uncertain] grazing cut [hia] [uncertain] feed bill from \$5 to \$10 per day. Figuring that he can get [60] [uncertain] days of grazing before removing [hia] [uncertain] cattle, time would amount to a saving of from \$3 to \$6 on his feed dill besides a seed crop and an improved condition of his 7 [soll.] [uncertain] Major Davia feels that this ls one [J] [uncertain] way to develop improved pastures. The administration has not, to this [ata,] [uncertain] furnished a proposed budget to congress, 20 I am still unable to [tive] [uncertain] on any information on the matter of reduction of the budget.
