WILD AND WOOLY.

Not long [acu] [uncertain] many of us
wistfully envied the cattlemen. Prices
were) re high, demand [acemed]
[uncertain] limitless in spite) 3 of that, and
tale after tale of fabulous, profits came
from the becf-producing

Now the picture has undergone an
almost incredible change. Steers that sold
for as much as 40 center pound are going
to [markrt] [uncertain] for as little as re [8]
[uncertain] 0 cents n case- after case, bear
josses have replaced the big profits. In
[ita] [uncertain] February 20 issue, [U.S.]
[uncertain] News and World Report deals
vividly with what has [happeocd.]
[uncertain] It [explaina] [uncertain] the l.
[causes—the] [uncertain] tremendous
increase in our cattle population, the
[putent Influence] [uncertain] of weather,
the speculative spree and the dream of
vast profit which caused people [whe]
[uncertain] knew little or nothing about
the cattle business re t [epter] [uncertain]
it as a sideline, the booming cattle
auctions where producers wold to each
other at ever-rising prices. U. B News
emphasizes that this han" been a fatal
[blow—there] [uncertain] is [atill]
[uncertain] money to be made in cattle,
and over a period of time the losses will
be paid off and recovery attained.

There has been no big rush of cattie-
men to Washington for government aid.
At the end the magazine says, Most
cattlemen are willing to [cuocode]
[uncertain] that the big prices of the post
war years are probably gone for good an
Many [dont] [uncertain] want to see such
prices

again. But almost al of them will"
[agre] [uncertain] with the Texas
livestock man, who said that the spree,
while it [Last-)] [uncertain] ed, was one of
the wildest. [wuoliest,)] [uncertain]
erap-thootingest [boome] [uncertain] that

free, competitive economy, that which
guys up must b, eventually come down.

[K] [uncertain] Many a Texan has
wished he had followed the advice that
Lill [Shakesyo] [uncertain] peace had
Polunius give his [pon:] [uncertain]
Neither borrower nor a tender be." But,
while many lenders [hace] [uncertain] run
[inte] [uncertain] grief, borrowers have
had even more. The extreme harassment
that some of them have suffered from
small- Joan companies and their collectors
has led even the Supreme Court of Texas
to call on the legislature for [A]
[uncertain] a protective law, e Thr present
Jaws give much more protection to
lenders than they do to [berowrrs].
Several [uncertain] efforts, some of them
[aponsored] [uncertain] by the Tezas
Junjor Har Association, have been made
to curb usury and to check collection
methods that involve mental cruelty

But the lobby of the loan companies
always exerts enough pressure in Austin
to prevent enactment of such bulls. Up to
now, the Lorrowers, on the other hand, are
unorganized and have no lobby. Now the
Junior Bar and the Texas Manufacturers
[Association] [uncertain] have [joined]
[uncertain] te support sound [amal!-loan]
[uncertain] legislation which should go far
toward [mecting] [uncertain] the situation.
In small loans, Texas has a constitutional
10 per cent limit and in practice
extortionate [Interest] [uncertain] that can
and does exceed 100 per cent. The
legislature has before it s- constitutional
amendment which [abowd] [uncertain] be
submitted and a proposed statute that
should be adopted, affecting only loans up
to [\$£00—Dallas] [uncertain] Nawa.

THE LEVELING INFLUENCE.

Reprinted on [thle] [uncertain] page ie an ar) [tiele] [uncertain] from the Hillaboro Evening [Mir-], ror] [uncertain] about a worker in Russia who wan reprimanded because he pro-l ducked more than his follow workers, thereby showing some of them up ae). being lesa capable than he.

This philosophy does not [exiet in] [uncertain] Ruania alone t is rampant in [alt]) [uncertain] later organizations in this

country and has been one of their principles) for years.

The same idea ie to be found tn) ever increasing instances of human) endeavor and unless something is) done to check the trend it is going!" to halt all human progress. Progress). of humanity through the years has

been parked by the desire to keep)

up with the Joneses," and any time [thia] [uncertain] philosophy of life is changed [to:] [uncertain] hold the Joneses down to the level of the most indolent then all incentive is killed and progress cosses. [Our] [uncertain] present income tax policy tends to this end. The prohibitive perrent- agra levied on persons in the high brackets is stifling the desire to make large incomes it is even stifling incentive among people in the lowest brackets aa they alive to keep out of the next higher level. The story was told recently of s stenographer who used [aubterfuge] [uncertain] to keep on the unemployment rolls and worked less than six months s year. ECONOMIC HIGHLIGHTS.

We know now that Dwight Eisen- [hower] [uncertain] was speaking with some con- [ecious] [uncertain] exactness when he used the word crusade" to describe [hia] [uncertain] career as [poldier,] [uncertain] candidate and president," a columnist Holmes Alexander recently. The emplane on militant morality or conquest for righteous ness, already noted by Mr. Eisen- [howers] [uncertain] friends, la now being remark- [(ed] [uncertain] upon by his opponents." It se this crusading spirit which, more than any particular and specific inane, distinguishes the Eisenhower administration from [ite] [uncertain] immediate predecessors. And it is the crusading spirit which ie giving substance, unity and direction to the policies, alms and [activna] [uncertain] of both the president and the men who are close to him.

The new president ie a deeply te- [ligious] [uncertain] man, and ancient religious principles heavily influence hie think- [tng.] [uncertain] To quote Mr. [Alexander] [uncertain] again,

His own ancestors were members of a minority sect which migrated from

CARELESSLY IGNORANT.

The speaker asserted that Americans have foolishly resigned [themaclves] [uncertain] to [todeys] [uncertain] preventable plague of highway [accidenta] [uncertain] through the same blind ignorance with which I their grandparents and great-grand- parents accepted smallpox and other killing diseases as inevitable in the days before [aclantific] [uncertain] research found antidotes for traditional germ kill- [ers.]" [uncertain]

We have mentioned this before, but fit will bear repeating. During the war the writer was stationed for a time at a shipbuilding yard in [Charleston,] [uncertain] 8. C.
