REPORT FROM THE LEGISLATURE

April 23, 1922.

House Bill No. 820, which I introduced earlier in the session, was reported favorably this week by the House appropriation committee. This bill provides for a million dollar appropriation to the Texas Prison Board for the purpose of erecting a new prison unit at the Eastham farm in Houston county. The next step is to consider this measure on the floor of the House; and if the revenue is available, I feel confident that we will be successful. French Robertson, chairman of the prison board, and O. B. Ellis, manager of the prison system, gave splendid testimony to the committee and were responsible for the favorable report.

An effort is being made to force the congressional redistricting committee, of which I am a member, to pass out one of the redistricting bills. The only bills that have been introduced have been extremely unfavorable to Houston and Walker counties because each one would put us with counties that outvote us heavily. I believe that the best plan is to keep the 7th congressional district as it is now.

The House revenue and taxation committee has continued hearings on the \$4 million dollar omnibus tax bill, the only new tax measure now under consideration. The hearings will close this week when the committee will vote whether or not to send the new tax proposal to the floor.

Dan Thornton, a native Texan and present governor of Colorado, gave a brief address to the house of representatives this week. Governor Thornton is a graduate of Texas A. & M. College, and I agree with Governor Shivers that this Texan is making Colorado a fine governor.

Many visits from both Houston and Walker county constituents this week have been greatly appreciated.

Respectfully submitted,
James H. Clements.
