PEANUTS SUPPORTED AT NINETY PER CENT OF PARITY

The U. S. Department of Agriculture has announced that the support price for peanuts will be available to producers of 1953-crop farmers' stock of peanuts, as required by law, at a national average level of not less than \$215.00 per ton. This average minimum support price, which is 90 per cent of the March 15, 1953, parity of \$244.00, will be adjusted upward if 90 per cent of the parity of the beginning of the marketing season (August 1) is higher than the level announced.

The average support level for 1953-crop peanuts is \$219.40 per ton. Provisions of the 1952-peanut price support program and support prices by types of peanuts, and producing areas will be announced at a later date.

OUR SCHOLASTIC CENSUS SHOWS LOSS

The annual census of scholars in the Crockett independent school district has been completed and tabulated. There were 290 white scholars and 712 negro scholars, who will be between the ages of 6 and 17 years of age on September 1, 1953. This is a gain of 29 white scholars and a loss of 29 negro scholars from the 1952 census. There was a gain of 18% in the six year old group of white scholars. In addition to the new six year old white scholars, one out of seven scholars have moved into the Crockett district since March, 1952. This would indicate that the scholastic population of the district is not as stable as it was a few years ago.
