CROCKETT COURIER, MAY 14, 1953

A. AND M. COLLEGE FARM, RANCH AND HOME NEWS

College Station, April 27.—Texas
4-H club boys have for many years

studied, identified and judged specimens from the state's greatest natural crop—grass. It is doubtful if any one person can be cited as the originator of this program, but high on every list will come the name of the late R. R. Lancaster, extension pasture specialist of Texas A. & M. College, who furnished the specimens, conducted the contests and judged the job. The 4-H boys collected specimens from his pocket name the

cash that was used for prize money. This started in an organized way back in the thirties. One of the first county contests was held in Erath county back in 1936. County Agent Mack Bucklingham, with the help of the Dublin Development Club, started the contest. It was "Lank" who furnished the specimens, conducted the contests and judged the job. The 4-H boys collected specimens from his pocket name the

communities and wound up with 75. These were displayed in a show window in Stephenville and later the identification or judging contest was held. About this same time, several of the district agents included grass judging or identification on their district 4-H camp program. Lancaster gave much time and assistance to develop this phase of 4-H work. Their purpose was to develop within the boy an ap-

preciation for what grass had and could mean economically to the state of Texas and particularly to his home farm or ranch. He was taught to recognize the good grasses; their growth characteristics; the season of the year when they should be grazed; how best to handle the grasses to get the most from them and what to do about the invader plants that were a problem in most sections of the state. The

boys learned something about all the plants growing on the range regardless of type or economic importance. Joe S. Arledge, son of Mrs. Louise Arledge, left last week for Tyler for transportation to San Diego, Calif., to begin an enlistment in the U. S. Navy. Patronize our advertisers.

INFORMATION FOR ELECTRICAL DEALERS

To provide information to electrical dealers on proved successful practices in merchandising, Texas Power & Light Company presented five nationally known authorities in the electric appliance manufacturing and selling field at a special dealer meeting Tuesday, April 14, at the State Fair Auditorium in Dallas. "Be modern—go electric!" was the theme of the meeting attended by some 2000 persons, principally electrical dealers, distributors and manufacturers' representatives doing business in the north-central and east Texas area served by the company. The meeting was a part of the company's program of assistance to electrical dealers in the area it serves.

Featured speakers were Walter L. Jeffrey, sales manager, Refrigeration and Range Production, Kelvinator Division, Knox Refrigerator Corporation; A. T. Millett, Food Freezer sales manager, General Electric Company; Maurice H. Vrecks, director of sales training, Consumer Products Division, Westinghouse Electric Corporation; Cecil J. Prashaw, manager Range and Water Heater Sales, Frigidaire Division, General Motors Corporation; and Harry B. Bruce Jr., president, Power, Incorporated, Norfolk, Va.

Mr. Prashaw, well-known electric appliance dealer himself, described the meeting as the most outstanding example of a utility's cooperation with dealers that he had ever known. Mr. Bruce pointed out the survival of the dealer is dependent on his own efforts and named several guides which he referred to as "must-haves" for the dealer to follow to carry on a sound dealer business. He stressed particularly sales planning and follow-through.

To lend variety to the occasion, several well-known entertainers added a touch of relaxation. Headlining this section of the program were singer Cannon Howell, guitarist Nick Lucas, comedian Wally Brown, pianist Billy Kelly and Eddie O'Reilly, acrobats.

There in attendance were served a luncheon at noon as guests of TPLC Company. Attending from Crockett were Mr. and Mrs. C. Shoelwell, Mr. and Mrs. T. D. Crawford, Mrs. Clinton Scott, Mr. and Mrs. E. E. McBride, Mr. E. V. Maue and Mr. and Mrs. Claude Brown.

This is Welcome Week under the Humble sign in your neighborhood

This week the Humble dealer in your neighborhood invites you and your family to drive in and get acquainted.

He wants to show you the kind of welcome you can expect every time you stop for service under the Humble sign.

He wants you to find out for yourself the superior quality of Humble products.

He wants to show you how clean his station is, and how well equipped.

He wants to clean your windshield and sweep your floorboards, check your oil, your radiator, battery, water, tires—he wants to give you personal proof that Humble service is complete, prompt, courteous.

Above all, he wants you to know that he is a neighbor you can depend on, that his station is equipped and staffed to keep your car running right and looking good.

So drive in, neighbor, and get acquainted—you're always welcome under the Humble sign.

HUMBLE OIL & REFINING CO.

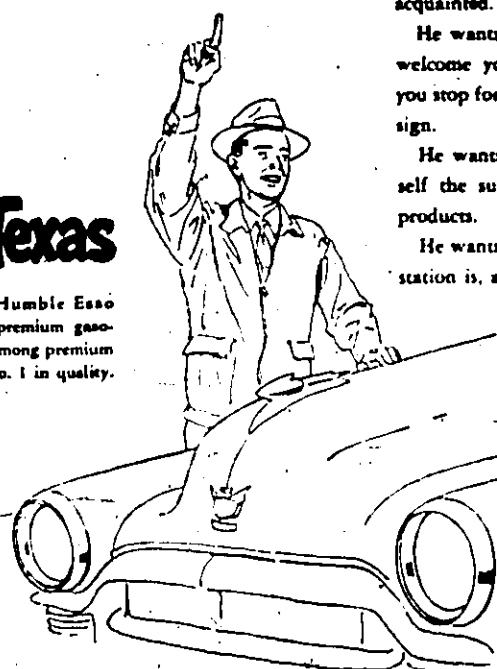

When was the last time
you had your oil changed?

If your oil is 1000 to 1500 miles old, let your neighbor under the Humble sign drain your crankcase and refill it with either of two great oils: Esso Uniflo if your car is new and uses SAE 20 oil or lower; Esso Extra if your car uses SAE 30 or higher.

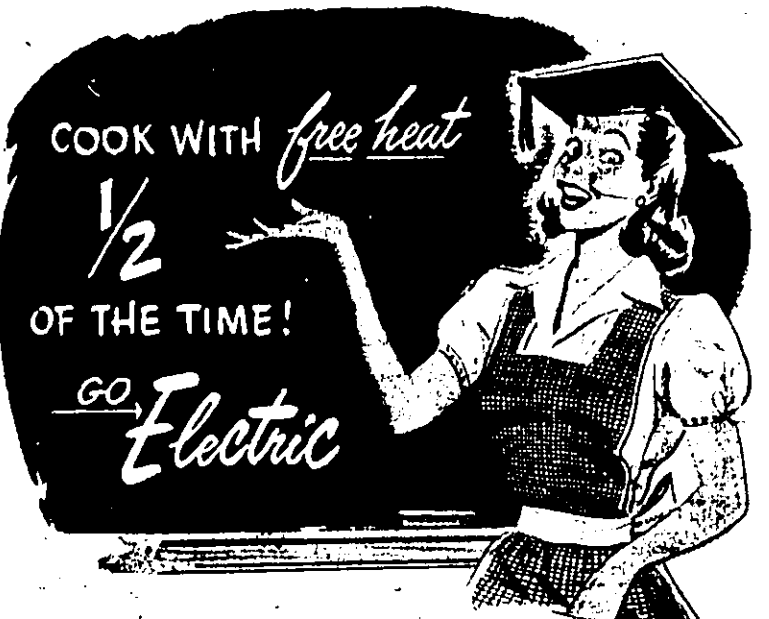

No. 1 in Texas

More Texans use Humble Esso Extra than any other premium gasoline. It's No. 1 in sales among premium gasolines because it's No. 1 in quality.

Neighborly Service
for Texans!

Are you planning to make your vacation trip in your car? Let your neighbor under the Humble sign introduce you to Humble Touring Service. This fine service provides you with clearly marked road maps to and from your destination, a trip log and other helpful information. Tell Humble Touring Service where you want to go—they do the rest.

Do you know that in a modern electric range... the electricity is on only about one-half of the time? It's true! What's more, electric heat is constant, accurate, automatically controlled—thus eliminating guesswork and failures in cooking. For most surface cooking... you use one of the low heat positions. See your electric appliance dealer. Let him tell you all about this modern, electric way of cooking... how you can cook an entire meal, with so little attention!

TEXAS POWER & LIGHT COMPANY

With all its higher quality...

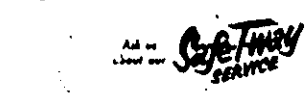

It brings you more new features, more fine-car advantages, more real quality for your money... and it's America's lowest-priced full-size car!

Farther ahead than ever in quality... yet the lowest-priced full-size car... with sharply greater economy of operation! Imagine—the most beautiful car in its field, with new Fashion-First Bodies by Fisher that set the standard of styling, inside and out. The most powerful car in its field, with your choice of a new 115-h.p. "Blue-Flame" high-compression engine or greatly improved 108-h.p. "Thrill-King" high-compression engine.

Yet, with all these new and exclusive advantages, there is no increase in Chevrolet prices, and it remains the lowest-priced line in its field! Yes, indeed, only Chevrolet gives such excellence with such economy. Come in and prove it to your earliest convenience!

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on Bel Air and "Two-Ten" models at extra cost.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!
