A person may be and to be power) when he is in full command of his own [forults.] [uncertain] If [hei] [uncertain] not in [such}!] [uncertain] t command, he fails to be master uf himself. He who is not master of

[himecif] [uncertain] will, simply as a practical

matter, find it almost if pet [com-] pletely [uncertain] impossible to guide and direct the work of others. This [remaina] [uncertain] true) even if a young man or woman begins with exceptional natural endowments.

None of us can be held responsible for the quality of his natural abilities.

But each one of us is, by the from discipline of life itself, held to [atrick] [uncertain] accountability for the use to which his natural abilities are put.

Anything, no matter what its ns- [ture] [uncertain] or form, that rubs one of full [contro]) [uncertain] over himself and his own [de-] [uncertain] he [cisions,] [uncertain] is [hia] [uncertain] mortal enemy. The man of sobriety seeks always to [sce] [uncertain] himself, as well as bis sure rounding, steadily and whole. He neither exaggerates his own import: [ance] [uncertain] and capacities, thus making him self obnoxious to others, nor does he,

[Ureldly] [uncertain] underestimate himself so that; he fails to achieve tasks that may be, well within his powers. He can be a) man of vision without becoming an!

irresponsible enthusiast for every no- [vel] [uncertain] idea he can coolly estimate con- sequences of proposed acts without succumbing to a fearful and paralyz- ing [peastmiam.] [uncertain]

MORE BEEF FOR THE DOLLAR.

A short time ago, the American

Meat InSTITUTE made a erves-countey spot check of retail beef prices. It found that some cuts were selling [a»] [uncertain]

the lowest prices in four years. It also found that in many places steaks were being offered at prices close to.

or even leas then, the price reached by hamburger at Inst years peak.

In the light of these [facta] [uncertain] it is nut) surprising to learn that consumers

hare been [cating] [uncertain] much more beef than was the case a few months ago, And we need have no fears as to the ade- [quacy] [uncertain] of [supply—the] [uncertain] cattle [popule-] tien [uncertain] un the nations farms and ranches ae ie at a record high, according to Department of Agriculture reports, and it is expected that the 1953 slaughter will be considerably greater than that

[illegible or non-text passage omitted — see scan]

The recent gyrations in the cattle markets hare provided an excellent illustration uf how the law of supply and demand works. It is an axiom that when any commodity is in [beary] [uncertain] supply, the price tends to go [down—] [uncertain] and that when any commodity is in short supply, the price [tende] [uncertain] to gu up. Dur to a combination of factors, late beef [marketing»] [uncertain] hard been heavy ard the price levels have reflected that fact.

This is boon to the consumer, who gets more beef for his dollar, From the producers standpoint, the price [drope] [uncertain] hares been sharp. Dut those

Hut it is miso true, and we had peter fuck it, that hard work ie in. [rreasingly] [uncertain] unpopular with millions of younger people. Too many believe, that [society"—that] [uncertain] is, other people owns them a living." Too many) believe that it suffices merely to work hard enough to get by."

Now, our free society could never have been [bullt] [uncertain] by that kind of people Nor can it be maintained by that yi uf people. The society we enjoy was founded and enlarged by men and [wo-] [uncertain] men who believed that a man deserves, rewards only if he carne them. [In"] [uncertain] those days, a man would have cen-. [sidered] [uncertain] suggestion that he be content merely to [grt] [uncertain] by," an [unforgy:] [uncertain] able reflection on his personal bonus

It is important that no one should imagine that in our time the valve and rewards of persons) industry are less than they [weretin] [uncertain] the past. Indeed, the opposite is true. The yours roan or

woman who is willing to work hard, intelligently, and faithfully stands better chance than ever before to reap rich rewards. Actually, his--or [her—chances] [uncertain] of achieving these rewards are increased by the presence of those who believe in giv- ing the least possible effort for the, greatest [poenbie] [uncertain] compensation. Se- elected,

YOURSELF.

There comer a time to every man when he must, as the old phrase has it, hang up his word and shield. No man can come to [thal] [uncertain] moment without a sharp peng of regret for the cessation of many warm and treas- [ured] [uncertain] daily [asecclations,] [uncertain] He may, how- ever, find compensation In an bonor- able pride in the course he has fin- [ished] [uncertain] and in the constructive accomp- [lishmenta] [uncertain] in which he hae had mo- [dest] [uncertain] part And he can look back over the road he has [trareled] [uncertain] and be grateful for those principles of [candurt] [uncertain] by which he found guidance. [Overs] [uncertain] good many years of working j with people, he may have become con:

[vineed] [uncertain] that what makes for the suc- cess uf failure cf any man [Is] [uncertain] found almost wholly within [himaelf. Al] [uncertain] though there may be an exception here and there, neither accident nor eternal circumstance really deter.

mines a mans carver, What deter:

mines it, lies within his own mind and heart. The, outward life of any man his attitude toward his work his relationships with other [people] [uncertain] his veracity and dependability al these are an extension of his [owt] [uncertain] inner [values.—Harry] [uncertain] T. Klein.

The house voted by a good majority [thla] [uncertain] week to eliminate croea-filing in

Earlier in the [season] [uncertain] the house passed the bill providing for a Fort Worth-Dallas Toll Road Authority. This bill [waa] [uncertain] returned to the house by the senate authorizing the building of toll roads on a state-wide basis. I strongly opposed [thie] [uncertain] state-wide toll road bill, feeling that we should first experiment in the Dallas-Fort Worth area to see whether or not [tol] [uncertain] roads are feasible in our state. This measure was withdrawn because of the strong opposition, but supporters of the state-wide toll road bill will probably try to pass it again as a great advocate of free roads in Texas, but do believe that the congested higher in the Fort Worth-Dallas area warrant the building of a toll road.
