[illegible or non-text passage omitted — see scan]

Id hate to have any unsympe- thetic husbands read [thie] [uncertain] but

rankly, its positively amazing the way the [Acocrican] [uncertain] oman has the [businesa] [uncertain] world standing on [ite] [uncertain] car to see that [Ife] [uncertain] for the [hamemaher] [uncertain] is [inecreaz:.ngly] [uncertain] better and cater!

For in.tance after Ube first furry of excitement d.ed down over the wonders of [acclate,] [uncertain] nylon, merlon, dacron, and other roan-mads fiber, Mrs. Homemaker found a hitch these [synthetle] [uncertain] fabrics stubbornly re- [sisted] [uncertain] color removing in the process of home [dycing,] [uncertain] She set up a howl, then [aecitied] [uncertain] back while [scichtists] [uncertain] went to work.

One manufacturer, whose all- fabric dyes are a household byword, came back with a [miracle-formula™] [uncertain] [anscr,] [uncertain] Its a new dual action"

color remover that not only re- mores color effectively from syn- thetic [fibera] [uncertain] but produces faster results than crew on the natural

friendly" [fabrics—and] [uncertain] at the same [pricea] [uncertain] you pay for ordinary [(now] [uncertain] outdated) color removers. As re- suit of [miladys] [uncertain] call for [getion,] [uncertain] hell enjoy the benefits henceforth of the moat significant technical advance in fabric color-stripping for home lycra in many years. Tintex Home Ecomemica [Burrau] [uncertain] experts explain that the problem brought cn by man-made fibers was solved by [usirg] [uncertain] in the same re- mover two [lypcsof] [uncertain] stripping agents [J] [uncertain] rather tl.on one as in past. One type is for the fabrics that lend [F maelves Teadily] [uncertain] to color removal, The [accond]

[uncertain] type ts a reserve [powrr] [uncertain] that steps in to do the job the mo- [ment] [uncertain] the first agent meets resistance, Purely and simply it means that al) [gueaswork] [uncertain] is eliminated when [remuvig] [uncertain] color preliminary to re-dycing [unerenly] [uncertain] faded ma- [terial] [uncertain] or changing from dark colors to fight. Except for a very few [fabrica] [uncertain] like the metal and glass- fibered ones, which cant be handled by any home process, al) fabrics made for apparel and home furn- [ishings] [uncertain] can now be profeas.onally [tintexed] [uncertain] In your own [kitchen—and,] [uncertain] grind you, no boiling [neceazn!] [uncertain]

Any more problems?
