PUBLISHER'S NOTICE

In case of errors or omissions in legal or other advertisements, the publishers do not hold themselves liable for damages, further than the amount received by them for such advertisement. Advertising is accepted only on this basis.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Courier will be gladly corrected upon its being brought to the attention of the management.

The Crockett Courier invites communications for publication when subject is of general interest, and if letter is not abusive or of a personal nature, but all such communications must carry author's signature.

All unsolicited manuscripts, letters and pictures are sent at the risk of the owner.

Obituaries, resolutions, cards of thanks and other matter not "payable" will be charged for at the rate of 20¢ per line.

Parties ordering advertising on printing for societies, churches, committees or organizations of any kind will, in all cases, be held personally responsible for the payment of the bill.

OUR YOUNG MEN.

Ordinarily our boys have stepped forth from their high schools and colleges full of vigor and the ambition to carve a place for themselves in the destiny of this great nation of individualists. Now they know they are doomed to two or more years of regimentation in the armed forces; doomed to possible incineration; doomed to a possibly ignoble death on the

barren hills of Korea. We worry about the sapping of our natural and financial resources in this long-drawn out affair, but of greater concern should be the sapping of the vitality and the initiative of our young men. In the military, especially in the lower echelons, initiative is unwanted and discouraged, and judging from Van Fleet and MacArthur, this holds true in the officer's ranks as well. Initiative and the courage to try the untried is the thing that has made us the outstanding nation of the world. The disavowal of such inclination on the part of our young men in their formative years, prefigures a generation largely passive to do only as they are told.

It has long been the custom to extend congratulations to these young people as they enter into another great phase in their lives. We can only wish them well as they set forth as sacrifices for the blunders of adults whose chief concern is political expediency.—Italy News-Herald.

-THANK YOU, TEXAS!

The continuing response from Texas—individual, group, enterprise—has pushed above \$100,000 the Dallas News Relief Fund for tornado-devastated Waco and San Angelo. There was really no question that this would happen, once the people about us could be advised how to send direct aid. It was to this end that the News, conscious of ability to reach a wide and sympathetic readership, initiated the fund. Given the opportunity, the great heart of Texas has answered to help stricken Texans.

There have been big and generous gifts. There have been gifts, too, from the many who can afford little, but who have pitched and sacrificed because sacrifice on their part, they felt, was needed. The widow's mite has had its many splendid counterparts from hearts overflowing with desire to aid.

One hundred thousand dollars has been a goal, but not a final one. For all that we can do among us, there will still be distress to be relieved, recovery to be provided. So long as contributions to the relief of Waco and San Angelo continue to come in the amounts will be reported, the gift forwarded to the two cities. Their machinery has been set up to utilize all possible aid from outside. To those who have given, to those who will yet give, the News can only say from its appreciative heart: Thank you, Texas!—Dallas News.

CROCKETT COURIER: JUNE 11, 1953

HOW TIMES HAVE CHANGED!

Over the years, American retailing has made enormous advances in its services to the consumer—there is simply no comparison between the typical retail store of today and that of the past. And this employment is unwanted and discouraged.

An amusing and significant example is found in a set of rules posted in an Illinois store back in 1930. These included the following: Store must be open from 6 a. m. to 9 p. m. the year round. Store must be swept; counters, shelves and showcases dusted; lamps trimmed, faked and chimneys cleaned; doors and windows opened; a pail of water and a bucket of coal brought in before breakfast.

The employees who are in the habit of smoking Spanish cigars, being shaved at the barber's, going to dances and other places of amusement, will assuredly give his employer reason to be suspicious of his integrity and honesty. Each employee must pay not less than \$2 a year to the church and must attend Sunday school regularly. New employees are given one evening a week for courting. After 14 hours in the store the leisure hours should be spent for the most part in reading.

That was the situation 23 years ago in retailing, as in other enterprises the lot of the American worker has improved to an almost unbelievable extent.

"GOVERNMENT SHOULD NOT SUPPORT THE PEOPLE"

"The reason should be constantly enforced that, though the people support the government, the government should not support the people."

Does that sound like something that was said yesterday? Actually, it was said by President Grover Cleveland 73 years ago, in the course of vetoing a long-forgotten bill.

The principle which President Cleveland laid down was important and still holds true.

RENT A MAYTAG WASHING MACHINE
Either Automatic or Wringer-type

Second Street Goliad Avenue

then. It is a thousand times more important now. In the intervening years millions of us, knowingly or otherwise, have been infected with the virus of government paternalism. We have become accustomed to being supported, wholly or partly, by government. And that trend, unless checked and reversed, can end only in dictatorship, tyranny and the destruction of all that is courageous and adventurous in the human spirit.

JUNE IS DAIRY MONTH

College Station, June 1.—The dairy industry in Texas is a mighty important contributor to the over-all agricultural income of the state, to say nothing of what it means to the health and welfare of the state's population. The value of all milk produced in the state last year amounted to about \$200,000,000, says R. E. Burleson, dairy husbandman for the Texas Agricultural Extension Service. Total milk production reached almost four billion pounds.

During the present month, Burleson says the dairy industry will be in the spotlight for June is dairy month. At this time the industry, he explains, is having its troubles just as are other parts of the great agricultural industry.

Wonderful idea to come by for supplies for that "sudden jump" picnic or fishing trip. Open late every evening.

Warner's Grocery
Houston Highway

try. This is the season of greatest milk production and surpluses are creating producer problems. They'd disappear, says the specialist, if consumers would step up their purchases of milk and other dairy products.

Stepped up purchases of milk are of the utmost importance because the fluid milk market is the largest single outlet for the state's dairy products. Surpluses are being used in large quantities for the making of ice cream, cheese, butter and evaporated, condensed and powdered milk. Dairy products in any form, says Burleson, are among our best food and are needed by young and old alike for providing essential nutrients.

The specialist says that milk production in the nation for the first four months of this year is about seven per cent higher than for the same period in 1952, but is expected to slacken for the remainder of the year. Even so, the total for the year is expected to reach 118 billion pounds or 3 billion pounds more than for 1952. At the end of 1952, Burleson reports that 6,000 herds in Texas, were producing Grade A milk; that approximately 12,000 head of dairy cows were on test in the 23 dairy herd improvement associations in the state; that 21,000 cows last year were artificially bred; that 5,271 sows were filled in the state by dairymen; that 3,304 4-H dairy members owned 8,424 dairy animals and that 24,148 dairymen attended the 224 meetings held in the state last year by the Extension Service's dairy specialists.

Texas dairymen are making progress, but must make plans that will provide an adequate feeding program including silage, hay and pasture; develop a strong breeding program for supplying herd replacements and improve dairy herd management and marketing practices if they are to satisfactorily meet competition and the cost-price squeeze, says Burleson.

Doin' the Cossack Drag

HERE'S ONE of the thrilling angles at which fans of major rodeos around the nation are seeing pretty Jean Allen today. She is an Arizone housewife whose unique trick and fancy riding feat, like "The Cossack Drag," shown below, makes her top in her field.

IN COMPACT deluxe horse trailer, pulled by pickup truck, Jean and husband Frank carry mounts along the rodeo trail.

PRETTY PICTURE from any angle Jean Allen and favorite horse DAUGHTER PATTY, a trick rider in her own right on running board of the Allen's International pickup truck, accompany them and dad in their home on wheels. It's a adventurous and profitable ride.

BE CAREFUL WHEN USING SPRAYER
All over Texas have been using insecticide sprays. Because most of these are poisonous and some are inflammable, special precautions noted on the labels should be observed, says Dr. W. C. Cox, state health officer. Common sense safety rules include: production of food, dishes, silverware, spring, hair cream and the auto and smoking utensils from moth, mouse, moth, bottle under, was, however, quite as fly sprays. If you spill con-

CROCKETT COURIER: JUNE 11, 1953

PAGE SEVEN

centrated insecticide solutions on yourself, wash off immediately with soap and water.
Don't expose yourself or members of your family unnecessarily to insecticide dust or spray mist. Provide extra ventilation by opening doors and windows when extensive jobs are being done.
Care should be taken not to spray liquid insecticides into electrical outlets or on exposed electrical connections because of danger of short circuits. Don't apply oil-base sprays near fire, flames or sparks and don't

smoke while applying them.
Special precautions should be taken to store insecticides where children will not be able to reach them. Never put into a kitchen cupboard where they might be mistaken for food.

FOR ATHLETE'S FOOT USE A KERATOLYTIC BECAUSE—IT SLUGHS OFF the tainted outer skin to expose buried fungi and kills it on contact. Get this STRONG, keratolytic fungicide, T-40, at any drug store. If not pleased IN ONE HOUR, your 40¢ back. Now at Dick Christy Drug Co.

Prove for yourself that Dodge gives the most truck for your money!

Look at the money-saving features listed below. And then remember that Dodge gives you these features at new lower prices! Prove for yourself that Dodge trucks are your best buy! Compare them with any other make! See or phone us today!

Features like these plus new lower prices!

SHARPER TURNING than other leading makes to save you time and effort.
7 POWERFUL ENGINES, with 100 to 171 h. p.—3 engine brand-new. You can be sure of the right power for your job with Dodge.

TRUCK-O-MATIC TRANSMISSION with 5th Fluid Drive, for the best in shift-free driving. Available in 1½- and 2-ton models.

SUPERFLEX BRAKES of the advanced dual-primary type in 1 through 4-ton trucks. Of the leading makes, only Dodge offers these up-to-date brakes.

More power in the 1½- and 2-ton

range than other leading makes. More pickup and express bodies than other leading makes, including new 110" wheelbase 1½-ton pick-up.

Greater 1½-ton-panel payload and cubic capacity.
Fluid coupling, for smoother traction in 1½-, 1½- and 2-ton models, offered only by Dodge.

2 fuel valves on all models to assure cleaner fuel and cleaner engine.
Floating oil intake selects clean oil just below top, avoids sediment at bottom of crankcase.

Water distributing tube on all models

directly cools valve seats... means longer valve life.
Exhaust valve seat inserts on all models for better valve seating, longer engine life.

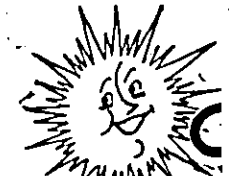

4-ring pistons on all engines save oil, upkeep.
Independent parking brakes on all models is simple, efficient, powerful.

Cyclone brakes lining last longer... no rivets to score brake drums.
Offset shock absorbers on 1½-, 1½- and 2-ton models give smoother riding.

Better balanced weight distribution for extra payload.

PRICES REDUCED AS MUCH AS \$41.00! In addition to these quality features, Dodge offers new lower prices! You save when you buy, you save when you operate new Dodge "Job-Rated" trucks! For a real deal, see or phone us today!
