PRESENTS PROBLEM MINUS AN ANSWER.

The secretary cf states broadcast was a news report, not an editorial Mr. Dulles outlined a problem. He ware po answer, For this particular problem there may, indeed, be [no}] [uncertain] answer.

This country lent [ttaclf] [uncertain] philanthropically perhaps, but [unwiacly,] [uncertain] to wetting uy the State of [Israe] [uncertain] against the wishes of the Arab states, That has been dune. The situation exists. Everybody now would like for the Arabs to [uccept] [uncertain] the fact, [ict bygonre] [uncertain] be bygones. But human beings do not react in that fashion, least of all human beings imbued with and [conatantly] [uncertain] subjected to the emotions ef nationalism. Se when Mr. Dulles opines that the United States, a prime [facter] [uncertain] in the creation of [Israel, wil!] [uncertain] pursue an [impartis!] [uncertain] policy" in the Middle East to win the friendship of both Jews and Arabs, it in a nice trick if he can turn it.

The plain fact ia that the Arab states were subjected to an armed invasion, financed and equipped principally from Britain and the United States. They were [aubjerted,] [uncertain] too, to all the diplomatic pressure the two larger nations could bring upon them. In net result, they lost a war and sore of their [terirtury.] [uncertain] They can forget it about as easily na a householder who has been robbed of his goods while the officers of the law look on. And even if there were no rampant nationalism in the [Pan-Arab] [uncertain] center, there would still be astute Russian agents to stream the point

[Lerac] irs] [uncertain] athwart the march of [Husaia] [uncertain] to the continent of Africa and the gates of Suez. Isracl is necessarily o part of any Red expansion program. The Dullea concern over that is logical, hut his call on Jew and Arob ta bury their differences and [Leconme] [uncertain] friends embodies wishful thinking.

The [Arable] [uncertain] could accept [Jareel] [uncertain] but for two factors. One ia the question of Jerusalem, which [har] [uncertain] never been amicably

aettied.' The other in the wound [auepiron] [uncertain] that [lerac] [uncertain] can not be contained in its present boundaries if [KR] [uncertain] remain state. If it remains,

[Iarac!] [uncertain] must grow at further coat to the Arabs. Growth 1a certain, even

Af there were no immigrants to swell the [pupulation] [uncertain] of un already overcrowded [Jittle] [uncertain] country.

Realistic Zionists have never been

[Daciiward] [uncertain] in asserting that the future of Zionlam embraces a [commerria] [uncertain] empire ae from the Mediter- [Fanwan] [uncertain] to Euphrates and the Tig- wis. Realistic [Arabs] [uncertain] are nut [Mel] [uncertain] that [fact.—Dallas] [uncertain] News. HONEST MONEY.

By Thurman Sensing.

There is one fundamental fact which the people of this country should [realfee] [uncertain] once and fur [all—that] [uncertain] we shall [mever] [uncertain] have o [thervughly] [uncertain] sound economy until we have [bhunert] [uncertain] money to beck it

We have not had an honest dollar pow for twenty [sears—and] [uncertain] we till do not hare jt. Until we get uy it will be exceedingly difficult to keep the [politiclans—and] [uncertain] we mean the [pelltictana] [uncertain] of either party from spending and squandering the peoples money.

A gold standard and a redeemable currency are the only [pulicemen] [uncertain] that can [hecp] [uncertain] the politicians from doing these things i

It is difficult for some people to understand shy a geld standard is necessary. What a gold standard" actually mana is an honest standard." It mean the dollar has a tenaille value back of it- not just a printing press, If something else could be used as well an gold, then it could replace gold a, [9] [uncertain] standard and have the same effect. Throughout history, however, nothing hap yet been found a0 [univernally] [uncertain] adaptable as gold for this purpose, and [It] [uncertain] is therefore only [senalble] [uncertain] to continue to

Crockett Courier — June 18, 1953

use It.

The main thing to be noted is that urging a return to gold standard is a matter of modules it is a matter of honesty between government and [ita] [uncertain] people.

When our government [atandoned] [uncertain] the gold standard in 1924, it robbed the [poople] [uncertain] of forty per cent of their savings. The government, by this act, violated sanctity of contract and [repudisted ita] [uncertain] pledged promise to the people. It took from thy people their [gold—which] [uncertain] they had [carned] [uncertain] and which they owned [ang] [uncertain] which [wae theitsend aince] [uncertain] then, just as is the case in [Ituasias] [uncertain] the people of [thie] [uncertain] country have not been allowed to own gold.

ACRES OF DIAMONDS.

Russell [FH.] [uncertain] Conwell relates the story which the [of4 Arab] [uncertain] guide said he reserved for his particular fiends" [ile tuld ofa] [uncertain] wealthy Persian named. Ali Hafed, he became unhappy he- cause he wanted still more riches, and he sold al) hie lands and belonging to [pruvide] [uncertain] money so he could-go in anarch of a diamond mine. After many years and traveling the world over in vain, he was in rags, wretchedness, and poverty, and he [atood] [uncertain] on the Bay of [Liecay—and] [uncertain] cast himself into the tide, never lo [bie] [uncertain] again"

[Shortly] [uncertain] afterward, the most ironic thing happened. There was discover ed on the very land which Ali Hafed [hed] [uncertain] sold the most magnificent diamond mine the world hail known up to that time. And then was true. It [wae] [uncertain] the diameral- fine uf Golconda, which contained [Miterally] [uncertain] acres of diamonds. There, was Ali Hafeds diamond [mine—in] [uncertain] his own beck [yard— an] [uncertain] he never thought tp [louk] [uncertain] there.

So it in with many people. They leave the good [Jand] [uncertain] where they belong and go [wanderingh] [uncertain] from place to place blindly searching for fame and fortune, and never find it. But as

Conwell [sald] [uncertain] there te a way for any man in this land of ours to find [actes] [uncertain] of diamonds. Every man bis the opportunity to make mere of himself than hr [dows] [uncertain] in his [ewn] [uncertain] environment, with his own [akill,] [uncertain] with [bia] [uncertain] own [encrey,] [uncertain] and with his own friends."

And bow is that? [Simply.] [uncertain] this. Observe aleut [jou] [uncertain] and take note of something that people need. Then serve that need, and [yoy] [uncertain] will be rewarded as chis as if you had found heres of, diamonds.

HIT DOC WILL HOWL

The point ts that the current [econ] [uncertain] om) drive is all-inclusive, [regardiens] [uncertain] of what [groupe] [uncertain] ut affects ft is not [himaed] [uncertain] on the [idga] [uncertain] of economy for the few it is based on the ides of economy for all. [Tt.] [uncertain] will be resisted, and strongly, by [individumle] [uncertain] and [organitations whirh] [uncertain] have long been used te getting free" federal funds. The heat will be turned on congress to [herp] [uncertain] the [monry] [uncertain] flowing out. However, US. News [olmetves,] [uncertain] This time, though, the [mep] [uncertain] in congress are in a [mved] [uncertain] to cut beck. Change is on [lus] [uncertain] way."

That change, of course, ie being forced by the fact that our [fiacal actup] [uncertain] is in about as bad shape as anyone can imagine. The new administration knew it would be a mighty tough [problem—and] [uncertain] it has turned out jo be even tougher than was expected. The time has come when, figuratively [apesking,] [uncertain] the nickels must be watched no leas than the dollars, for the people ate demanding tax reduction.

OUR ECONOMY,

Things are changing, gradually but surely, in Washington today. That old source of apparently endless manna, the U. S. treasury, is taking on new look.

U.S. News and World Report opened [a' fonture] [uncertain] article on what ie

happening" with these words, Getting something for nothing out of the [goveemment] [uncertain] Lent as oms ap it once was. The change will be hitting home before long t will mean fewer [acrvice] [uncertain] of many kinda, leas federal money for hospitals, power, army bases, airports.

Effects willie felt by farmers, [businesamen,] [uncertain] politicians, [workera—] [uncertain] just about everybody, including [60,- OUU,000] [uncertain] taxpayers."

Some of these cute will involve very large sum of money. Some will involve relatively anal) sums. Rut, whether the [acale] [uncertain] be big or [ilttlr,] [uncertain] the pruning ia reaching into almost every [Korernment] [uncertain] office.

Mrs. J.J. Mulligan, in Porter Springs.
