FARMERS ENTITLED TO
ECONOMIC SAFEGUARDS

*[illegible or non-text passage omitted —

Editor Courier:

Thin fiscal year for the federal government wall expire Tuesday, June 30. The bouse has parsed all appropriation [bille] [uncertain] for the incas year 1954, except the defense bill, which will probably be considered next week. Hlowerer, only one of the bill has been sent to the president, the others being presently in the senate for action, or In conference committee. Thus most of the departments will enter the new fiscal [yoar] [uncertain] without their [appropriationa,] [uncertain]

As anticipated in my letter of [(wo)] [uncertain] weeks ago, the new postmaster general has proposed increased [posta]] [uncertain] rates, which would raise letters from Se to [4¢] [uncertain] and air mail from 6c to 7c. Newspapers and other second-class mai! [woold] [uncertain] be increased by per cent and on third-claas [mai]] [uncertain] the proposed increase is about 33 per cent. We [wil!] [uncertain] learn more of the [detatls] [uncertain] when committee hearings are held at a inter date. The Interstate Commerce Commission approved [fourthclass] [uncertain] rate increases last week.

1 understand that the president learned on his recent western tour that farmers want no hand-outa, but as [jong] [uncertain] as tariffs exist to protect industry, end labor is protected by the minimum-wage law, they feel they r are also entitled to economic safeguards. He knows he must face the arm surpluses and form his farm policy in time for next years [clections.] [uncertain]

[Secretary] [uncertain] af Agriculture Benson is in west Texas now, [mecting] [uncertain] with farm and cattle representatives in regard to their problem, including the drought situation. It is my information that the department of

agriculture will undertake grass roots"

[aurvey] [uncertain] to [gét] [uncertain] farmers opinions [on,] [uncertain] price supports, commodity marketing and foreign trade.

Any of you who wish to express) your opinions might write Secretary

Benson, department of agriculture,

Washington. If you do, I would like a copy of your letter to him. 1 can then follow it up and request that your letters be considered.

Saturday some of the displaced Tex-ans in Washiagton had a barbecue.

It was the first [barbecve] [uncertain] I-have had [gince] [uncertain] 1 got here. Al Payne, who has been here for some time, [wae] [uncertain] at the picnic and enjoyed another visit with him. His mother is Mrs. Ann

Payne of Athens.

Mrs. Bonnie [(Patton)] [uncertain] Smith, form- [erly] [uncertain] of [Crockett,] [uncertain] was a visitor Friday.

Visitors from home since my last iet- [ter] [uncertain] were Nat Davis of Huntsville,

Johnny Halbert of Attoyac and Miss

Mildred Harris of Navascta.

While writing this letter, Clint An- [derson] [uncertain] of Crockett [thephoned] [uncertain] and said he and his family have just ar- rived and will visit later in the day. Your Congresaman, John Dewdy.

We have long contended that our [congresamen] [uncertain] do not [jong] [uncertain] remain true representatives of their [diatricka] [uncertain] when they get to Washington. They seldom come bark to their districts and when they do, ordinarily hob-nob [onty] [uncertain] with political hacks whom they think can deliver the most voter. For the past several years many of them have de- eloped the practice of making trips to Europe, Asia, South America or other places outside the United States and far removed from the people they are supposed to [repreent.—Italy] [uncertain]

Newa-Herald.

Mr and Mrs. Mac Hurtt of [Hous-] [uncertain] ton [apent] [uncertain] a little vacation In [Crockett] [uncertain] last week, and from Crockett they made a trip to New Oricans and other points before returning to Howaston.

Give your car that cared for look, Replace your were seat [covera] [uncertain] with new ones in pleasing covers [nnd denigus.] [uncertain] We have all kinds, al [stiractive] [uncertain] prices.

If Texas cotton cannot be harvested by local labor [thia] [uncertain] year and farmer ate forced to contract for Mexican national to [grt] [uncertain] the job done, they will find a considerable amount of red tape [empped] [uncertain] from old procedures, the Texas Employment commission announces. Effective July [1,] [uncertain] the procedure, which originally tuck from five tu [atx] [uncertain] weeks to obtain [Mrzican] [uncertain] nationals, will Le shortened to the extent that farmers will be able to get these work: [crs] [uncertain] in a-week or ten [daya,] [uncertain] TEC paid.

Not only has much red tape been eliminated, but the farmers cost has been [reduced—from] [uncertain] \$16 per worker te [\$f]] [uncertain] on the original [contracte] [uncertain] and from [\$7.60_,6] [uncertain] \$460 for [recontracting,] [uncertain] the agency [puinted] [uncertain] out 1

Under the old contracting proced- [ure,] [uncertain] farmers submitted orders all the, way from iW to 60 days in advance of actual need. This procedure work- ed a [hardahip] [uncertain] on the farmer because information given-- today possibly would not be valid 30 or GO days hence because of weather, crop conditions er some other reason. On wp of all this, the order for Mezican na- [tionals] [uncertain] had to be reviewed and approved by the Washington office of the

Crockett Courier — July 2, 1953

Bureau of Employment Security.

This delay was cumbersome and irrtating to the farmer. This plan has been junked for one more workable.

Now, the farmer needing workers goes to an office of the Texas Employment commission and places an order. If it determines that local or migratory workers are not available to do the job at the time and place specified by the farmer, then the local office will prepare an authorization to issue a contract Mexican National Agricultural Workers.

Game Warden Lt. E. Miller of Pecos who made the arrest, said the man who resides at Pecos, Tex., gladly paid up since he could have been sent to jail. Miller said Justice of the Peace

Fenton Alley of Pecos justified the severity of the fine because some cattle recently were poisoned in similar case. Besides, the game warden added, the people out there are trying hard to restore fishing the Pecos and its tributaries.
