From where I sit... by Joe Marsh

Bad Case of the "Zitters"

Our copyist is on sick. So the editor (me) is taking over some of his chores—which include running the addressograph machine on "mailing-out night."

Last week I didn't have the usual number of papers left over for sale at the office. (Wouldn't figure what had happened—until Club Zimmerman called to ask why he'd gotten 25 copies.

Then I realized—"Zimmer" is the last name the machine prints. Guess I forgot to turn it off... and it just kept grinding out Club's name on all the remain-

ing copies. That machine just didn't know when to stop.

From where I sit, people are like that sometimes. They often don't know when to stop. Like those who are prejudiced against someone with an accent, perhaps... or against someone who likes a cold bottle of beer with his supper. So, in these columns I try to persuade everyone to "throw the switch" on prejudice so it won't get repeated.
