Walter Robert Page.

Recognized as one of the best training centers for the infantry, adding Camp Roberts' instruction and training is the responsibility of a new system in the army called division faculty. The instructors in this unit are selected for their initiative, ability, knowledge of military subjects and experience. They are combat veterans, college graduates and former college and high school instructors. All must know their subject, well if only to produce the best combat in the infantryman, which is Camp Roberts primary mission.
