TARGET OF FIGHT:

McCARTHY OR AIMS!

Crockett Courier — August 6, 1953

Many Americans must be wondering whether the fight against Senator Joseph McCarthy is really being made against his methods, as the anti-

McCarthyites claim, or against the fact that he is making investigations which expose skullduggery a lot of people in Washington don't want uncovered. The senator made an interesting comment when the three

Democrats on his subcommittee resigned in protest against his being given authority to hire and fire the [Tie] sag for the subcommittee. [Me-] comment when the three

Carthy the [Democrats] apparently don't want the affairs of the [Roose.]

velt-Truman [edministrations Invests-] gated too closely.

It is how the Eisenhower administration, which came into office on, the [alogan,] Let us clean up the mean in Washington," bs hiding with the McCarthy haters who don't want any shafts of public illumination turned onto the mess. It is even j more surprising how the old New Deal-Fair Deal coterie of liberals are not only holding on to their fobs, but ore to be advancing under the pres- [ent] administration tn" positions in which they can obstruct the [wurk] of those who courageously eek to clean [J] up the [meas] in Washington."

A case in point is William P. Bundy, son-in-law of the former secretary of

[State,] Dean Acheson. Bundy, who

McCarthy said contributed 400 to the

defense of Alger Hiss, is a top aide of Allen Dulles, brother of the [preacnt] secretary of state and head of the [puperaceret] Central [Intelligence] Agenbey. McCarthy said Bundy is about to be given the job of liaison officer between the Atomic Energy Commission and the [National] Secursty Coun- [cil,] highest defense planning agency. [The] McCarthy subcommittee called [Wundy] to testify and he made an ep- [I]

A employes to testify before [congressional] tnrestl- gating committees. The two later conferred, [bowever,] and reportedly reached an agreement whereby joyal- ty of C. 1. LOCAL " CONDITIONS [A8] [uncertain] RELIEF GAUGES.

The high gods on Olympus and [tbe] worried mortals at the foot of the [moountain] are never able to see the problem from identical viewpoints. This is even true when both particle are doing their level best to do the

right thing in the right way. This strongest argument for local self-government has an apt application today when ald for the drouth-stricken cattle Industry must for many [reapone]) come [frum] Washington.

Fortunately the present national) administration in [program™] and be lief opposes centralized power. So representations from [(this) area as to" [lacial-leve]] handling of drouth aid are meeting sympathetic hearing [Informally] the News learns that [Wash-! ington] does not intend to handle relax on the merit of individual cases. Ob-

[viously] this can be determined only in the local field. The result should le to eliminate much of the worry- bred criticism attaching lo the paup- er oath" aspect of federal aid to the in principle relief bs not required) by those factors in the cattle industry fully able to finance their feed pro ram Roth in principle and fart, [telief] ip needed by the small cattle owner whose marginal markets are, endangered by his present feed situ-:

[ation.] But market economy can not be settled by so [siniplified] a tate [ment] as that the cattle owners able to pag- should de x0 and the others, should obtain relief.

It ts plainly [uneronmemic] to handle

[Mow-grade] catUe on a high-priced feed program even if you are able to [o] it [So] the result of excluding all, with [abibty] to [pey] from the low-price feed program would be to force the excluded to throw their low-grade, cattle on the market. The more would, be dictated by plain [erenomics.] That is why every case should be decided on [ita] merit. It is not a question of [wralth] vt poverty, but of the con- [ditions] that prevail.

[Perhaps] the [cutstanding] fact in the relief effort ls the recognition at both ends of the line that
