one 700 Crock be 30.40 cents per pound, gross weight.

Also, the average Joan rate for the

1053-rop American-Egyptian cotton will be 74.62 cents per pound, net weight, and for Sealand and Sea Jaland cotton will be 06.22 per [pounrl, net}] [uncertain] weight.

These [sre] [uncertain] the same at the minimum loan [tevéls] [uncertain] announced on February 26,

1953, The minimum levels of support were announced at that [tline] [uncertain] in accordance with Section 406 of the Agricultural Act of 1949. This section provides that the secretary of agri- [culture;-tracfar] [uncertain] as practicable, shall announce the levels of support of field crops in advance of planting and fur-f [ther] [uncertain] provides that the level of support

90 announced shall not be reduced if the maximum level of support when determined, [ialeaa] [uncertain] than tho level so" announced.

The parity price of upland cotton as of July 16, 1963, announced July

31 s 3422 cents. Price support on upland cotton [Is] [uncertain] mandatory at 90 per cent of [ite] [uncertain] parity price and on extra long staple cotton at 2.40 times the level for upland cotton. However, the minimum levels announced pre- [viously] [uncertain] are the same as if based on the current parity price of upland cotton, Therefore, the minimum level previously announced for upland cot- ton becomes the effective level at which [auch] [uncertain] cotton will be con [tenn]] [uncertain] and the [schedulea] [uncertain] of minimum ym [tates] [uncertain] for American-Egyptian, Sea

Island and Sealand cottons announced on May 25, 1953, become the effective tales at which such varieties of extra long [ataple] [uncertain] cotton will be supported.

The loan rete for Basls Middling White and Extra White 16/16" upland cotton for Crockett approved ware- houses ls 32.67 cents per pound.

Fort [Worth_August] [uncertain] 10,
[1963] [uncertain]

While it appears that accusations of
[chiseting] [uncertain] on the drouth
[reilef] [uncertain] pro- gram, at [cetera,]
[uncertain] will occupy the head- lines for
[aome] [uncertain] time to [come—the]
[uncertain] basic problem will remain.

Government authorities are watch- ing
very closely the percentages of cows and
heifers being marketed each day. [Untill]
[uncertain] such time aa tho slaughter of
females reaches 60% of the total
[kill—then] [uncertain] tho cattle
[popylgition] [uncertain] ts still

Many observers feel that huge cat- [tle
nambars,] [uncertain] rather than drouth,
are [treaponsible] [uncertain] for the
current low prices and the disastrous
declines of the past year or so. Many
sections of the southwest, not in" the
drouth [arcaz,] [uncertain] are heavily
over-populaled with cat- [tle] [uncertain]
at this the.

Most observers in the southwest hope
that surplus cattle can be moved before the
heavy Erass cattle runs from midwest and
western ranges hit the markets later
[thisaummer] [uncertain] and in the fall.
Chaotle conditions [could™] [uncertain]
result f shipments are delayed In the
southwest and south.
