DOVE HUNT
TO EXPAND

Austin, September 28.—Opening
of the South Zone mourning dove sea-
son October 1 may find newly im-
migrated birds in Texas, according to
the executive secretary of the game
and fish commission.

He said field reports indicated that
the recent cool spell in the Midwest
caused some mourning doves to begin
moving south to the more moderate cli-
mate.

The South Zone season runs from
October 1 to November 9. Meanwhile,
waiting for all stars.

the North Zone season which opened
September 1 continues through Oc-
tober 10.

The executive secretary said results
in the North Zone show that the
"only fair prospects" given before
the season opened. He added the
belief that "hunters studying feeding
habits of the dove birds should be
able to fill their bags now and
then." The limit is ten doves per
day or ten in possession.
