5 INJUNCTION HALTS
PARALYZING STRIKE.

The [preaidents] [uncertain] action to
halt the dock strike on the Atlantic coast
has been taken as rapidly as the operation
of the Taft-Harticy law permits. Dwight
Elsenbower could not direct the attorney
genera to ask an in- Junction against the
strike until the fact-finding board had
reported on the possibilities of successful
ego [tiation.] [uncertain] The president
appointed the board as soon aa the strike

Ih this Instance Federal Judge Edward

[J] [uncertain] INTO THE WILDERNESS.

We must beware of trying to build society in which nobody counts for anything except the politician or the official Winston Churhill Maybe Agriculture Secretary Ben- eon had Mr. [Churchbill] [uncertain] in mind Tues- day. Benson took the bold step of reorganizing the United States De- [partment] [uncertain] of Agriculture. Lets trust ti he is not bung in effigy.

The department, originally concern- ed with research and marketing, has come to encompass nearly every facet of human life, [frem] [uncertain] the grading of goats hair to the inspection of food you vat

Under Mr. Bensons predecessor, Mr. Brannan of the Truman admin- [istration,] [uncertain] the department grew to thirty major divisions, each of [whick] [uncertain] had [subgrepcings] [uncertain]

and sub-eubcreup- [ings] [uncertain] and sub-eob-eubgroupings.

A farmer who wrote to the de [partment] [uncertain] for some information on fertilizer got five [rephes] [uncertain] from fire different [agencies—all] [uncertain] of them contradictory. The case is on record It is a symbol of [monumenta!] [uncertain] duplica- [Ttion.] [uncertain] The various agencies fight eve- ry effort toward [cunscldiation] [uncertain] Each fights for a bigger budget. The result is an-organization so cumbersome the average taxpayer could understand even one part of it. All he knows is, be [bas] [uncertain] to pay for it

Benson merely wants to regroup, consolidate, put proper functions in proper places, cut little [bere] [uncertain] and there and promote efficiency.

Now watch the pressure [groupe] [uncertain] bit him. Listen to the cry and wails, a he stalks into the wilderness of coo- fusion to help you, the taxpayer. We

don't envy [him.—Dallas] [uncertain] News.

EISENHOWER PLEDGES SOUND FARM PROGRAM.

President [Eisenhowers] [uncertain] appeal to

Americas farmers for patience was reasonable and should be [cumrincing,] [uncertain] Most farmers and stockmen realize that their [preaent] [uncertain] difficulties arise net from [politica,] [uncertain] bet from war, in- Metion and drouth. If the president had wished, he could have reminded his bearers that the prices of farm products dropped much more in the last months of the Truman adminis- ration than in the period since the

GOP took over,

The president acted [procuptly] [uncertain] and effectively om drouth relief last spring. He can be coun.ed on te have a comprehensive farm program worked out for presentation te cvo- [gtvse] [uncertain] in January. He had and that [thie] [uncertain] will include price supports. Whether these will be [fized] [uncertain] or flexible remains to be seen.

Mr, Eisenhower was wise in saying that the will be a bipartisan program. Too often, measures for farm [rehef] [uncertain] have Leen political [foothalle] [uncertain] de aged to gain votes for the party proposing them. In this case, as he had done in others, the president intends te consult leaders of the opposition party before making his decisions. He also is [obtaining grassrouts] [uncertain] views as be travels through the farm and ranch states. His attitude, even more than his words, gives promise of program that will [aspure] [uncertain] the farmer ef-continuing to [reeetve] [uncertain] fair share of the nations [income—Dalias] [uncertain] News.
