relief, but it can not [bé] [uncertain]  
furnished by accepting a renewal of deficit  
fin- [ancing without danges. Probably]  
[uncertain] the:

[aame dileroma] [uncertain] is at the  
heart of the) farm program. Price supports  
bring farm relief, burden the consumer as  
a taxpayer as well es a buyer. [So;]  
[uncertain] the nation will walt with  
interest the) program which presumably  
will be made clear in time for the next ses-  
sion of congress to [act—Dalias]  
[uncertain] News.

BY PAUL CRUME

Homer Leenard, the former speaker of  
the Texas house, was telling about bis  
experiences during the week-end of the  
[Texas-Oklahoma] [uncertain] game in a  
hotel room separated from the next one by  
a door that [waa] [uncertain] too thin. The  
man next door seemed to have plenty of  
[fricnds] [uncertain] and a [limiticss]  
[uncertain] supply of whisky.

He seemed like a real good guy,"  
said Leonard.

As the night progressed, more and i  
more friends dropped by to see the  
man-and stayed on and on. They sang.  
They guffawed. They got pretty loud in  
[thelr] [uncertain] talk. Leonard Yound it  
impossible to asleep. Finally, at gray  
morning, the lest of the vis- items  
departed. Leonard heard the man in the  
next room fall across the

sleep.

A short time later, he wan awaken: [1]  
[uncertain] ed by a dynamite blast on a  
[nearby]] [uncertain] construction Job. It  
jarred the room.

And the man in the neat rooms rapped  
sharply en the connecting door. [L]  
[uncertain]

Quiet down In there," he ordered.  
Dallas News t

CATTLE MARKET  
STEADIES.

## Crockett Courier — November 5, 1953

Charles Lucey, a Scripps-Howard staff writer, recently sent out dispatch on the changing cattle situation. During recent period, he wrote, They've poured the biggest flood of cattle in gear into the Chicago stockyards and yet a market, that had been rum ragged entry couple of month ago, took it [withheat] [uncertain] buckling.

Farmers who took terrible beating in mid-summer beat and drought, [spd] [uncertain] feeders of fat cattle who got [ofuized] [uncertain] between high [corn] pri [uncertain] low cattle prices, are [perk-/] [uncertain] ed a [beginnlog] [uncertain] to show [confi-}] [uncertain] [dence] [uncertain] again.

Predicting [marketa shead] [uncertain] is always risky [bualnesa,] [uncertain] but most people around the stockyards say they think prices should hold fairly [ficom™] [uncertain]

Beef prices in general [bmve im-] [preved] [uncertain] moderately from the [lows'] [uncertain] reached last summer. But they are [atill] [uncertain] much below the [higha] [uncertain] of a [year]] [uncertain] ago, and the consumer [geta substan-] tially] [uncertain] more for his money when [he}} [uncertain] goes to the butcher show. [Moreover,] [uncertain] it ds definitely in the " long-term [In-} terest] [uncertain] of the consumer no Jess [than]] [uncertain] the producer that the value of beef return to and stay at a reasonable level, which will compensate for [to-}] [uncertain] days cost of raising the animals and return some kind of a profit. [This}} [uncertain] is meat-cating country, and a [stés-] [uncertain] dy [inercase] [uncertain] in the meat supply [ia}} [uncertain] essential if we are to maintain our living standards in this regard. [And/] [uncertain] its obvious that, instead of [increased}} [uncertain] supply, wed soon have a sharp decrease if it became apparent that the meat business, with all He work and risks and investment, was a losing enterprise.

Bo the recent news from the meat front is on the good aide. May it continue that way.

## ANIMAL HEALTH.

Failure to keep cattle out of or- [charda,] [uncertain] corn fields and gardens after the fall harvest may result in [ostly] [uncertain] leases from choke," the American

Foundation for Animal Health says.

Foundation [officiala] [uncertain] said choke" was not uncommon in catch [berause] [uncertain] they naturally swallow food the [fint] [uncertain] time without chewing it much. Ear corn, potatoes, cabbage, beets and apples were listed by the Foundation as common causes of the condition

[Regardless] [uncertain] of the cause, drooling and bloat may be the first symptoms when cow is choking," the foundation said. Affected cows also often bold their heads low with necks stretched out, while coughing, gasping and open mouth breathing also are common [Indications] [uncertain] of the problem." [Affected] [uncertain] animals [wil]] [uncertain] make no at- tempt to eat or drink. Since similar symptoms may be shown also by cat- [tle] [uncertain] affected with rabies, bloat, bron- chits, wooden tongue and other diseases, an immediate diagnosis is ne- [cesaary] [uncertain] to determine the trouble, the foundation said.

Fallure to [obtain] [uncertain] competent aid immediately may be costly," officials said, because badly choked [cattie] [uncertain] lone likely to die of [blost] [uncertain] within a short time." [Veterinarians] [uncertain] may use drugs to re- tax the throat muscles of the cow po that the offending object may be re- moved more easily. In other cases, [Inatumentsa] [uncertain] may be used to obtain relief. Sometimes surgery bs needed in extreme emergencies to relied the bloating, the foundation [asid.] [uncertain]

One of the beat examples of dicta- ton by Washington occurred in Indiana in 1947, In connection with federal regulation which [ferbade] [uncertain] pub- he inspection of state relief rolls. The [tegluation] [uncertain] meant that only a few [ofifclals] [uncertain] and [acclal] [uncertain] workers knew who was on relief. Indiana objected to the

secrecy" provision, but Oscar Ewing, s Garage For

## WORK

## XCHANGE

## BORING

AN NORMAN Crankshaft a better job for you.

s Garage n Highway

## CROCKETT COURIER:

then Federal Security administrator, threatened te cut off federal aid [if}} [uncertain] the provision was [vivlatrd.] [uncertain] The Indiane legislature ruled, nevertheless, that welfare rolls be opened for [publie] [uncertain] inspection, and congress passed law upholding Indiana. Mr. Ewing [waa] [uncertain] overruled, but IL took an act of congress to do so. Incidentally, when Indianas relief [rolla] [uncertain] were opened for inspection, the [numberof] [uncertain] relief [reciplents] [uncertain] dropped sharply. [Sinoe] [uncertain] then. [loulrians] [uncertain] and Flerids have opened their relief rolls to [inapection.] [uncertain]

## [3-D] [uncertain] TAXATION.

The Chamber of [Commerce] [uncertain] of the

United Btates recently [peieted] [uncertain] cat, in ao [atabement] [uncertain] prepared for the Tlcuse Ways and Means [committer,] [uncertain] that while [S-D] [uncertain] is the newest thing in Hollywood its am old story to millions of American taxpayers.

These taxpayers are [inveators—the] [uncertain] people [whe] [uncertain] pul part of their savings in the stocks of corporations and thus [maks poasible] [uncertain] employment for tens of [milllona] [uncertain] of other people, an well as [thermeatres,] [uncertain] and keep [tha] [uncertain] vast [ocnomic] [uncertain] machine running.

Heres how 3-D [taszation worka] [uncertain] First, the investor must pay a tax on [whatercr] [uncertain] he [earns—which] [uncertain] in- [cludes] [uncertain] the mopey he later uses to buy

## Crockett Courier — November 5, 1953

his lock Second, the corporation in which he [investa] [uncertain] must pay a tax on [ita] [uncertain] earnings before it can pay him any dividends. Third, whatever he gets in the way of dividends is taxed again. In short, the Investor pays Income tax on taxed dividends of taxed savings!

That this la ws [groas] [uncertain] Injustice to investors guys without saying. But the investors interest ie the smallest factor involved. In the long run, the main sufferers from such punitive tax policies are the [Amencan prople] [uncertain] asa whole. For when we discourage investment in enterprise, we discourage industrial expansion and progress and everything which makes for more and [bettcr] [uncertain] jobs, and higher living standards for us all. Thats why 3-D taxation is a [preblem] [uncertain] that affects everyone.

## SAFETY [MAK] [uncertain] TO DE EARNED.

A short time ago three American railroads were given the coveted FE Harriman Memorial Gold Medal awards fur the best safety records for 1952, and [cleven] [uncertain] others were presented with certificates of commendation." This served to highlight the amazing [aafety] [uncertain] record established last year by the railroad industry as a whole.

[Jleze] [uncertain] are some of the achievements: Not [elngle] [uncertain] railroad passenger just his life tm a train collision er derailment Passenger fatalities from falls from trains and the Like were fewer in [namber] [uncertain] and in frequency than in any other year of record Fewer employes were fatally injured than

in any of the preceding 64 years fer which statistics are available. The number of fatalities due to highway grade [crosaing] [uncertain] accidents was the sec- [ond Jowest] [uncertain] fer the past 35 years. Even fatalities to trespassers Ulegally ending the trains of walking the tracks hit new [bew.] [uncertain]

How and why did all this [beppen?] [uncertain] Obviously, it want just because the, gods of chance [amiled] [uncertain] on the railroads. In railroading, as in moet other things, safety usually has to be earned. Bome 40 years ago the mil-

[ruads] [uncertain] launched an intensive [organised] [uncertain] safety program, and it hes [peld] [uncertain] off handsomely. Detter equipment, better systems of control, dey in and day out [tralning] [uncertain] of [employes—these] [uncertain] are the kind of factors that have made the railroads almost unbelievably [aafe.] [uncertain]

## GUARANTEED FOR WHAT?

Bome of the major labor unions are now pressing for a guaranteed annual wage for [workera.] [uncertain] Without going into the pros and cons of this long-debated Idea, a pronouncement [verenti] [uncertain] made by Geo. A. Hormel Company, which was a pioneer in adopting way stabilization policies, should be kept" firmly In mind by all concerned. [11] [uncertain] said, in part: [Certainly] [uncertain] our company Is wholly unable to redeem the money consideration In such guarantee un- leas we can keep cur people actually and profitably employed. The entire asset value of our company, casting everything r own, would only be sufficient to redeem a ten months" guarantee. Bo, when using the phrase guaranteed annual wage," we must ask the [question—guaranteed] [uncertain] by what? The only guarantee we know of s the [abfiity] [uncertain] of management to manage coupled with willingness of workers to work. If either fails, then the [guarantec] [uncertain] fails."

That is simply common [sense—bat] [uncertain] common [pense] [uncertain] seems to be something of a rarity these days. It is obvious that labor-management [groupe] [uncertain] could frame and sign contracts guarantee ing" wages of any amount for any period of time. But the contract will not be worth the paper it le written on [unlese] [uncertain] the company can eel auf- [ficient] [uncertain] gods at a profitable" price to make [poaalble] [uncertain] Ita fulfillment.

Last June congress set up a com- [wtlssivun] [uncertain] on intergovernmental rela- tons. Thr commission must decide [sebieh] [uncertain] calvities now carried on by

Washington rightly belong to the [atale] [uncertain] and local governments. Then  
[illegible or non-text passage omitted — see scan]

it will decide what taste Washington, [ean] [uncertain] give up to enable the states and communities to pay for these activi- ties. The [commiaaion] [uncertain] will submit [(te:] [uncertain] recommendations to congress and! [President] [uncertain] Eleenbower next March. [These] [uncertain] recommendations could lead to legislation restoring many [responsiities] [uncertain] to state and local governments

## IN TWENTY TEARS.

The October issue of the American Mercury features an article by [Paut] [uncertain] L. Martin, chief of the Washington Bareau of the Gannett newspapers, which is of direct personal interest te every [citisen Et] [uncertain] deals with gov- [ernment] [uncertain] spending [Guring] [uncertain] the 30 [yuers] [uncertain] which have just ended Hare [ary 5] [uncertain] few of the many facts he records:

In these 3C years, the government spent more than [\$775,000,000,000] [uncertain] and ran up [EK] [uncertain] wet deficit f mere than [\$229,000,000,000.] [uncertain] In sher words, it spent almost half again os much as ft wee able te collect, [despile] [uncertain] erer- increasing taxes.

At the end of [flec] [uncertain] 1832, the national debt amounted te a fraction does than 180 for each American Now the figure te above 2,000.

In 183%, a typical family with \$4,000 a year income paid \$44 n federal income [tares—now] [uncertain] jt must ad close to. \$500.

In the last fecal [yrrar, tas] [uncertain] collect:

tons were 2,100 per cent greater than  
[illegible or non-text passage omitted — see scan]

Read those figures again Then answer this question: How long can any nation stand [soch] [uncertain] a trend with-, out going bankrupt!

## Crockett Courier — November 5, 1953

## HONORABLE EXCEPTION.

One reason for the incredible cost of [gvrnment] [uncertain] ia that too many of ve want economy for the other fellow [only—and] [uncertain] never in matters that [affecta] [uncertain] ua.

But there are honorable exceptions and they deserve recognition. A [sbert] [uncertain] time ago the forest service merged [ite] [uncertain] Hailey, lavabo, [beedquartera] [uncertain] with that of Twin Falls in order to save \$16,000 a year. It might have been [cupected] [uncertain] that Halley people would [hbwel] [uncertain] in pretest. Bet that want the case. The Halley Times said: [Katuraly] [uncertain] we don't take to boar our forest service headquarters but the [fantasthe] [uncertain] cost of [gerenmeat] [uncertain] cant be [leweted] [uncertain] without come sacrifices. [Pvrbape] [uncertain] a [seving] [uncertain] ef \$15,000 annual); looks [less] [uncertain] than s pinhead but five such mergers made recently adds up to \$76,000 annually [Multiply] [uncertain] such

### PRETTY WEATHER WE ARE HAVING IS ENCHANTING

Friend Milldew, here Saturday, predicted an early fall and, in the usual run of things, an early winter. [He] [uncertain] had been out in the woods where the squirrels [seamper,] [uncertain] at the back of his corn patch, where the rails are crook eldest and unevenly laid, like a govern- [ment] [uncertain] administration plan, and had seen some squirrels toying with the!

hickory nuts, putting them up for the coming winter. He calculated that was an party sign of fall and winter and that fall and winter would be cor- responding early. [ile] [uncertain] also noted
