problem of the railroads is a problem that
should be of much con- corn to all of us.
The railroads are the backbone of our

If we establish barriers that preclude the [railroads] [uncertain] from earning profits the inevitable result is a breakdown of the [system—to] [uncertain] the detriment of you and me, to the detriment of the nation."

At the present time, much attend: [tion] [uncertain] in being given to [proposed] [uncertain] changes in laws and regulatory practice [ticea] [uncertain] that would make for more equitable competition between the various

Then a recent development may make, you [change] [uncertain] your mind. The coal industry, for a combine. [then] [uncertain] of reasons, [has] [uncertain] been in the final [uncertain] doldrums. [Profit] [uncertain] have been close to [pioneering], [uncertain] and is many coal companies have been running at a loss. A number of mines have!

[ments], [uncertain] not all of them do. A short time ago the federal agent of leading [Velectric] [uncertain] utility which uses huge quantities of coal in [its generating plant] [uncertain] said: It is essential to have a wider and fuller understanding of the dependency upon the future of the coal industry of the future of this country. Without financial health, no industry has a future. The purchase of [coal] [uncertain] below the profitable level is [poor] [uncertain] an economy, as some believe. It is an extravagance which the free enterprise system cannot afford." We must have [coal—now] [uncertain] and tomorrow, And only healthy industry by be trusted to keep on prodding us with the cost we need.

year department stores and specialty stores both did more [business], [uncertain] measured by dollar volume, than in the same period in 1942, the improvement being three per cent and four per cent

It might naturally be expected that this meant [compensate] [uncertain] rise in profit-

as compared with 08 per cent for the corresponding period a [yrar ago—e!] [uncertain] gain of a" mete one half of [ome] [uncertain] per) cent. And the net profits of the" specialty stores did not change at all.

Here is the answer to those bo [belleve] [uncertain] that high prices coupled with big volume naturally mean great profits for retailers. Rises in wages," [tazes] [uncertain] and other costs have often more than offset the benefits resulting from increased business. Competition, which never was more intense than now, holds profits to an extremely mode- rate figure.
