of scan —

[H] [uncertain] Moter [vchule] [uncertain] inspector, RB. Smith [2 whe] [uncertain] a in charge of the vehicle [inapection atstions] [uncertain] in Houston county, [asl4] [uncertain] that [rithough] [uncertain] inspection Is progressing extremely well in Houston county and throughout the state, It [weuld] [uncertain] be well [(o) [uncertain] keep the following [fefermation] [uncertain] iu mind:

With ten [montha] [uncertain] of 1953 already behind ua, [thc] [uncertain] cate of Texas fa 106 [Gighway disths] [uncertain] behind the 1952 total fog a comparable period. This decreasing rate may be held and up improved upon although the dead) holiday [acntou] [uncertain] is [faat] [uncertain] approaching. With winter and holiday trave) only a weather change away, it would be wine for all those who hare not had their vehicles inspected to do so now,

The very [cssentinjs] [uncertain] of winter [driving~] [uncertain] groper brakes, lights, horn and [windableld] [uncertain] wiper [operation—are] [uncertain] the backbone of the new. [moter] [uncertain] vehicle [imapection] [uncertain] program. We can, therefore, do our winter driving safely [aod] [uncertain] with fewer [cperational wortlea,] [uncertain] as well as acid the last minute spring [duspection ush,] [uncertain] if we will have our vehicles inspected between now and Christmas.

Mr. Smith said that of [afl] [uncertain] the cart [uspecied] [uncertain] far, records show that [Lk%] [uncertain] need tone adjustment or repair; [36 rlune] [uncertain] needed brake [adjustpeeris\_] [uncertain] while 34% needed headlight [correctrens.] [uncertain] At the same time, total cost of inspection has averaged only \$1.77 per [ext] [uncertain] which includes the price of the inspection. Smith said that this was probably the most reasonable life insurance Leing sold in [Texas] [uncertain] today. [He] [uncertain] urges [cach] [uncertain] owner to go te day to the inspection station of bis

choice [Tomorrow] [uncertain] may be too tate.

There ere [cleren tnepection] [uncertain] stations in [HMousten] [uncertain] county. They are required by Inw to be open for [busipeas] [uncertain] at [Ienst cight] [uncertain] hours day. Moat of then are open much longer, and each one will be glad to give [yout] [uncertain] car a thorough, courteous and teed inspection.

### FARMERS [DISCOVER] [uncertain] PROFIT [IN SESAME] [uncertain]

Wayne Gard in Dallas News"

## Crockett Courier — December 10, 1953

Two hundred farmers in more than re [acore] [uncertain] of Texas counties have siart-, ed growing a hew crop [thle] [uncertain] year. [This"] [uncertain] js [seaame,] [uncertain] grown for the oil from its seeds. The Texas [planting»] [uncertain] merry made on a trial basis and covered:

only about a thousand acres. Rut good results may lead to the planting of 100,000 acres next year.

Although sesame a a commercial crop je relatively new to the Western

Hemisphere, it ip one of the oldest [crope] [uncertain] In Asia. In China, India and:

the Nile Valley, farmers were grow. ing sesame at least as carly as 1000

*[illegible or non-text passage omitted — see scan]*

sesame seeds in their religious cere.

x

*[illegible or non-text passage omitted — see scan]*

monies, and Greek warriors bad them included in [thelr] [uncertain] rations.

To Ali Baba and his forty thieves, [acsame] [uncertain] was the magic word that opened the door of [thetr] [uncertain] cave. Some Texas farmers now view the need as a crop [thal] [uncertain] will open a door to new [marketa] [uncertain] and [higger locomes.] [uncertain] The [oll] [uncertain] can be used for any of the purposes for which [ollve of]] [uncertain] and cottonseed [ol]] [uncertain] are peed. It goes into freda, candies, soaps, cosmetics, perfumes, insecticides [apd] [uncertain] paints.

Sesame will grow on just about [eny] [uncertain] land that will raise cotton. It has a slim talk that reaches a eight of about four feet. Blossoms form along most-of-the stalk and are followed by seed soda. Farmers harvest the stalks by machine and place them

In [ahocks] [uncertain] to await threshing. Sesame is unusually resistant to insect pests.

The main drawback to senate as a field crop has come from one of Its growing habits. Beed pods low on the stem usually

[malure] [uncertain] and shatter while [thoac] [uncertain] on the upper part are just form- ing. Aa a result, [moch] [uncertain] of the seed is-spilled on the [grousd] [uncertain] and wasted. Te overcome this, the Texas [Research] [uncertain]

[Foundation] [uncertain] has [workrd] [uncertain] for six years [lto] [uncertain] develop strains that will mature [(more] [uncertain] uniformly, without the usual [shatlerning.] [uncertain]

The sesame aced used by [Trzas] [uncertain] farmers [thie year] [uncertain] was that ef s semi- chattering variety developed by the i foundation. Experimeota there bee j brought also s [nonshattering] [uncertain] Pe.

but this want yet ready for [commerria]] [uncertain] use It does" now have the high yield of the [semishaitering] [uncertain] strain, and it would require a different type of harvesting machine.

The deep tap root of [seaame] [uncertain] enables it to thrive through [het] [uncertain] weather and most [drucths.] [uncertain] Each pod con- tana about ternty-five [seeda,] [uncertain] which ate about the size and shape [ofeto] [uncertain] math needs The seeds contain about 4 per cent [cf]] [uncertain] They alec hare pro- ten, carbohydrate, aah, moisture and crude fiber. Pressing the oil from sesame revs a residue which can be marketed at cake or men. This makes value able ingredient fer enriching human i foods and fer supplementing livestock darts. [Sieeame] [uncertain] cake [frem] [uncertain] the 1963 Texas [crep] [uncertain] bad [L233] [uncertain] per cent [prejlein,] [uncertain] That compared with [4}] [uncertain] te

s [ANDERBONA] [uncertain] NURKERY GREENHOUSE Ahe

[Nee] [uncertain] ee per cent for cottonseed cake.

Sesame [oj]] [uncertain] has a big advantage over other [vegetatic] [uncertain] oils In its [great-] [uncertain] fer ability to stay fresh instead of turning rancid. Tests have shown i that heat-treated sesame [ol]] [uncertain] has re! [malned atable] [uncertain] for 1,976 hours, [com-]. pated] [uncertain] with 10

hours for cotton bed oil. [This] [uncertain] ts especially important In view of its possible use tn shortening, margarine and corn chips.

## DAVID RUCKMAN

## [ENTERSBASIC] [uncertain] TRAINING

Fort Biles, [Teran—Prt.] [uncertain] Darid [Pr.] [uncertain] Rockman, son of Mr. [RC. Rockman,] [uncertain] Lovelady, recently began 26 weeks) of bask training in the [Antialreraf]] [uncertain] Artillery Replacemeat Training [cen: ter,] [uncertain] Fort [Bliss,] [uncertain] Texas.
